To Users

Thank you for choosing the VIVIDSTORM projection screen.

Please read this manual carefully before using the product and keep it properly.

The manual of products, accessories, user interface, etc. in this description are schematic diagrams and are for reference only. Due to product updates, the actual product may be slightly different from the schematic diagram, please refer to the actual product.

Safety Instructions

For your security and interest, to ensure safe and correct use of this product, always comply with the following precautions to avoid dangerous situations and damage to your unit:

Safety Instructions

This symbol warns the user that uninsulated voltages within the body of this product may be sufficient to cause an electric shock, therefore, any form of contact with any part within the body is a risk of electric shock.

This symbol reminds the user to some important information related to operation and maintenance.
Please read this information carefully to avoid incorrect operation.

Earth Terminal Ground Symbol
This refers to using this product needs electrical grounding.

Shipping Instructions
Please use this product's original packaging or same materials to transport this product.

This symbol reminds users do not touch the screen with hands directly.

This symbol reminds the user to stay away from the inside of the housing, especially during operation.

This symbol reminds users not to throw sundries into the housing inside to avoid mechanical damage to the screen.

Do not place the equipment near fireplaces or high temperature objects such as gas stoves, barbecue or heaters;

Keep children and pet away from the product.

This symbol reminds the user prevent hands or other body parts from entering the inside of the bracket, causing hand pinching;
All items that are not product parts should be kept away from moving parts.

To prevent electric shock, fire hazard.

- Using incorrect cables may affect product performance, and may even lead to electric shock, fire and other accidents. In order to ensure product performance and safety, please use the same type of cable as the original cable.
- If a power extension cord is required, use a power cord with an amperage rating not lower than that of the product. Otherwise, it may cause the power cord to overheat, and even cause electric shock, fire and other accidents.
- In thunderstorm weather or when the product is not used for a long time, please unplug the power plug from the socket to avoid damage to the device caused by lightning or power line surges.
- Do not place flammable objects near this product to avoid fire.

Instructions for safe operation

- Never installed the screen in an unstable location, bracket, wall, or ceiling, to prevent the product from falling, causing serious equipment damage and personal injury.
- Do not attempt to disassemble this product, there are dangerous high voltages inside that could cause personal injury. When repair is required, it must be done by trained or authorized service personnel.
- Do not place this product upright as it may tip over and cause damage.
- Make sure the product protected from rain and moisture.
- Do not immerse or expose this product to water or other liquids. If any liquid or solid object enters the cabinet, please unplug the power cord of the device immediately and ask professional service technicians to check it before continuing to use it.
- Do not place this product in the following environments:
 - Poor ventilation or narrow spaces. ● Near any device that generates a strong magnetic field. ● Direct sunlight.
 - Extremely hot, cold or humid environment.

Packing Contact

When opening the box, check the contents of the box the list below. If there is any omission, please contact the dealer in time.

Important Safety Precautions

Please read all the contents of the user guide carefully and follow the operation steps below.

For reference when necessary, please keep this user guide.

1. In order to avoid damage to the equipment, please prohibit the use of any accessories not authorized by the manufacturer.
2. Be sure to handle the products carefully during transportation, so as to prevent product damage caused by collision.
3. In order to ensure the personal safety of the user and realize the reliable operation of the equipment, please make sure to use the power cord provided by the equipment to connect the power supply for charging.
4. Please place the device close to the power socket to connect the power supply for charging.
5. You need to place the product properly. Please do not place any heavy objects on the power cord and screen to avoid danger or operation obstacles.
6. In order to avoid electric shock, short circuit or fire caused by loose plug, please use the power cord correctly.
7. Please do not disassemble the screen by yourself. In case of machine failure caused by your improper operation, the seller and the manufacturer have the right not to be responsible for replace the product. In case of personal injury, no liability shall be assumed.
8. **The tubular motor on the electric screen of this product has a temperature control sensor with overheating protection mechanism. If the screen runs up and down continuously for One and a half minutes, the motor will rest for more than 30 minutes.in order to prevent the motor from overheating and damage,If the motor stops operation due to the start of overheat protection mechanism, please turn off the power and wait for 30 minutes to 2 hours until the motor cools down.**
9. The remote control supplied with this product contains coin / button cell battery. If the coin / button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the product and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Matters Needing Attention

-  Warning! If you do not strictly follow the prescribed precautions during use, this may lead to equipment damage and other unnecessary damage.
-  Please observe the family fire safety regulations; do not place the equipment near the fireplace or high temperature objects such as gas stove, barbecue or heater to avoid equipment damage.
-  Please keep this product out of the reach of children.

Do not place the equipment near the fireplace or high temperature objects such as gas stove, barbecue or heater

Keep children away from the product

Do not put your hands into the cover of the product

Matters Needing Attention

No one is allowed to open the inside of the equipment and repair the product without authorization, except for the authorized technicians.

1. Please make sure that the power supply connected to this product has stable current.
2. If you need to use the extension cord for this product, please make sure that the power cord rating of the extension cord is the same as that of this product, so as to avoid equipment damage due to overheating.
3. When your hands and feet are in contact with water, do not operate the power plug in this case.
4. When you encounter heavy rain, wind, thunder or lightning in the process of using this product, please be sure to disconnect the power line.
5. The curtain of this product should not be placed in direct sunlight, rain and humid environment.
6. In order to prevent the product from overheating, keep away from fire source and high temperature equipment when using this product. At the same time, the power supply of this product should be cut off before transportation or maintenance.
7. Like any other household appliances, when this product is not used for a long time, please completely disconnect the power supply to ensure safety.
8. If there is any obvious damage to any parts of the product, in order to avoid any injury and electric shock, please do not continue to use.
9. When installing in the residential and commercial buildings, users should provide reasonable protection for the products to prevent the radiated RF energy from interfering with the operation of the products. However, there is no guarantee that the product will not be disturbed in special installation.

Matters Concerning Projection

Projected Area

1. Please project according to the actual projection size of the screen purchased when using the projector.
2. Since the position of black border has been preset on the screen of this product, please do not exceed the specified projected area during projection. You should note that the default black border is not the projection area.

Without black border design:
Screen without black border
(The screen diagonal size based on 16:9 ratio)

Black border has been preset

Black border design:
Screen with black border

Without black border four projector ratio options

1. Regardless of the ratio, it can be projector. Easily compatible with 16:9 / 4:3 / 16:10 / 2.35:1 ratio;

About Screen Performance

1. The screen is only suitable for normal throw projectors.
2. If there are regular creases on the screen surface after the screen is opened, don't worry. This is a normal phenomenon. It is caused by the screen being curled and tightened for a long time, which does not affect the user's viewing. After opening the screen for a period of time, you will notice that the stripes on the screen will gradually disappear.

Installation Warning

Since the installation environment of each user is different, the instructions in this user guide are only for reference. If you need further installation and safety suggestions, please consult the professional installation company. It should be noted that no matter what kind of installation method you take, the product should not be loosened or dropped due to vibration or tension, so as to keep the product stable. The installation personnel of the product must ensure that the bracket accessories used have sufficient strength to support the product and select the appropriate installation position.

Before pre installation

1. When you open the package, please carefully open the screen package to avoid the product from rubbing or falling.
2. Please always place the screen in a horizontal position. Do not install the product on an uneven or inclined surface.
3. Please keep the screen away from dust, sawdust and liquid to protect the screen from contamination.

Hardware Parts List

Before you install the product, make sure that all parts of the product are included. Please note that the screws supplied with this product may not be suitable for all mounting surfaces. Please consult the professional installation personnel or hardware store to get the correct installation screws and anchors.

Hollow Wall Anchor

Small screws

Wall / ceiling mounting bracket
(with mini "L" type screw driver)

Suspended installation

1. The lifting ring of the equipment has been installed into the slide rail and fixed when leaving the factory.
2. To adjust the position of the lifting ring, loosen the screw on the ring slightly.
3. After adjusting the position of the lifting ring, please tighten the screw, and then hang the equipment on the fixed wall hook.

Note:

- The fixed distance of the two hanger should be left and right in the middle of the cover, not too close to the middle or side;
- The screen hanging from the ceiling should be flat.

Put the hanger on the hook. For high ceiling installation, chain or steel cable can be used (additional hanging parts need to be purchased)

Note: please make sure the equipment is installed horizontally and do not tilt it.

Wall / ceiling installation

1. Determine the installation position of the equipment, measure and mark the distance between the top and bottom screw holes of each bracket, and whether the distance between the two hanger is appropriate, and ensure that they are on the same horizontal line.
2. Then, drill a hole of suitable size at all marked points and install the bracket on the wall with screws.

More than two people are required to complete the following steps

3. Lift the screen upward to make it level with the bracket, clip the screen into the bracket slot and push it until a "click" sound is heard to ensure that the screen is firm.

4. After the equipment is stuck in the bracket, please use the mini "L" type screw driver to tighten the screw to fix the housing and the bracket.

Screen Running

Voltage information: make sure your screen is working at the **correct voltage**, depending on the area.

(Using the wrong voltage may cause the screen to become inoperable)

- (1) Plug the screen power cord into the correct power outlet.
- (2) When the screen is fully lowered and for prolonged viewing, you may choose to unplug the power cord. At this point, the screen will remain open and will not retract or close due to the power disconnection. To close the screen, simply reconnect the power cord to resume operation.

Note: When the screen is turned on, ensure that there is no obstacle and enough space at the bottom of the screen to avoid equipment failure.

Remote Control

For convenient access, the remote controller can be fixed on the wall surface and other planes through the bracket. (wall screw or double-sided adhesive tape can be used for fixation)

When the battery of the remote control needs to be replaced, as shown in the figure below, unscrew the cover of the remote control with a small screw, then replace the new button battery, close the cover of the remote control, and tighten the screw to prevent the loose battery from falling off;

Screen Height Limit Setting

①

Please ensure that the device is powered on. Begin the adjustment after fully opening the screen.

②

Enter adjustment mode: Use a pointed tool to press the 'Function' key on the back of the remote control 4 times, then within 10 seconds, press the 'Down' key on the remote control 1 time. At this point, if the lower axis of the screen jitters once, it indicates entry into the limit adjustment state.

③

Lower the screen to the desired height. Press the 'Up' key or 'Down' key for fine adjustments based on the height requirements. For significant adjustments, press and hold the 'Up' key or 'Down' key for 2 seconds to continuously adjust the screen position.

④

After confirming the height, use a pointed tool to press the 'Function' key on the back of the remote control 2 times. Within 10 seconds, press the 'Down' key on the remote control 1 time. The lower axis of the screen will jitter once, indicating the successful lower limit setting. Fully close and then reopen the screen to ensure the correct screen height.

(If the height is not suitable, please repeat the adjustment according to the first step.)

Screen Maintenance

Cleaning requirements:

1. Use a clean cloth to dip a small amount of water around gently wipe the screen;
2. Please use a clean cotton cloth or soft dust brush to remove dust particles on the screen;
3. Due to the weather, **especially the humidity; The screen surface may be wrinkled, it is a normal situation;** it can return to normal under normal temperature, and can be relieved by heating with a hair dryer.

Warning!

- Do not scribble on the screen.
- Do not touch the screen directly by hand.
- Do not touch the screen with hard or sharp objects.
- Do not clean the screen persistently or vigorously, so as to avoid screen scratch.
- Be sure to turn off the screen when you are not using the product.
- This product is not waterproof, only suitable for indoor use, not recommended for outdoor use.
- Avoid sharp objects directly contacting the screen surface, so as to avoid puncturing or scratching the screen surface.
- Do not use acetone, benzene, alcohol and other organic solvents to clean the screen, which will cause permanent damage to the screen.
- Do not run the screen up and down for more than 3 minutes, otherwise the screen will stop running. This is the phenomenon of motor overheating protection shutdown. Please wait 20-30 minutes for the motor to cool down before continuing operation.
- To avoid possible injury, do not attempt to remove the screen. If there are obvious damaged parts, please contact your authorized dealer.

Manufacturer's Warranty

Thank you for choosing VIVIDSTORM screens for your home or business. We are committed to providing high-quality products that meet your expectations. To ensure your satisfaction and peace of mind, we offer the following warranty policy for VIVIDSTORM screens:

1. **Warranty Coverage:** VIVIDSTORM screens are covered by a limited warranty against defects in materials and workmanship. This warranty applies to the original purchaser of the screen and is non-transferable.
2. **Warranty Period:** The warranty period for VIVIDSTORM screens is 2 Years from the date of purchase.
3. **Warranty Services:** If during the warranty period the VIVIDSTORM screen is found to have a defect covered by the warranty, VIVIDSTORM will, at its discretion, either repair or replace the defective screen or its components. VIVIDSTORM will cover the cost of parts and labor required to perform the repairs.
4. **Exclusions:**

The warranty does not cover damage or defects resulting from:

 - Improper installation, misuse, or abuse of the screen
 - Failure to follow the installation and operation instructions provided by VIVIDSTORM
 - Accident, fire, flood, or other external causes
 - Unauthorized modifications or repairs
 - Normal wear and tear
5. **Warranty Claim Procedure:** To initiate a warranty claim, the purchaser must notify VIVIDSTORM by contacting our customer service department at [Insert Contact Information]. A VIVIDSTORM representative will guide you through the claim process, including providing any necessary documentation or evidence of the defect.
6. **Proof of Purchase:** To be eligible for warranty services, the purchaser must provide a valid proof of purchase, such as a sales receipt or order confirmation, demonstrating the date of purchase.
7. **Shipping Costs:** If a warranty claim is approved, VIVIDSTORM will cover the cost of shipping the repaired or replaced screen back to the customer. However, the customer is responsible for the cost of shipping the screen to VIVIDSTORM for warranty service.

8. Limitation of Liability: VIVIDSTORM'S liability under this warranty is limited to the repair or replacement of the defective screen or its components as stated above. VIVIDSTORM shall not be liable for any indirect, consequential, or incidental damages arising from the use or inability to use the screen.

Other branded products or merchandise sold on VIVIDSTORM websites are under warranty provided by the brand owner or distributor. VIVIDSTORM shall act on your behalf with the warranty claims.

9. Governing Law: This warranty policy shall be governed by and construed in accordance with the laws of country or region where the product is shipped to.

Please note that this warranty policy is subject to change without prior notice. The warranty provided herein is in addition to any rights you may have under applicable consumer protection laws.

If you have any questions or need further clarification regarding the warranty policy, please do not hesitate to contact our customer service department.

Thank you for choosing VIVIDSTORM screens. We appreciate your trust in our products.
